CHAMP-ION

Building Europe's First Open-Access Pilot Line for Ion-Trap Chips enabling:

- Industrial-scale quantum chip production
- Stronger EU strategic autonomy
- A resilient and competitive quantum industry
- SME & start-up support
- A sustainable and competitive European ecosystem

Design → Fabrication → Integration → Testing → Production

Quantum Computing, Quantum Communication, Quantum Sensing

CHAMP-ION, the European Ion Trap Pilot Line, is supported by the Chips Joint Undertaking (Chips JU), Horizon Europe, and the National Public Authorities of the partners involved in theFramework Partnership Agreement Grant No. 101233101 and Specific Grant Agreement No.101288915.

Co-funded by the European Union

Chips JU
